## NOTES AND NEWS.

### THE LOUISIANA ELECTION DISTURBANCES.

Special Dispatch to the Chicago Tribune.

WASHINGTON, D. C., Feb. 12.—Democratic Senators will probably be surprised, to-morrow morning, to find that among the measures to which they gave a tacit assent to-day was a motion to print in the *Congressional Record* a practical review of the Louisiana election disturbances of the last few years, written from the most radical of standpoints and aimed in the interest of Senator Kellogg. The Vice-President announced, after the reading of

the closing paragraph is the following:

Had the party been guilty of oppression and exempt from fraud throughout the State, in December last, your memorialists would have been able to address you officially as the Legislature of Louisiana, and not as the powerless minority of that body, composed of a small portion of practically disfranchised American citizens. You are asked by men who occupy seats in the Legislature of Louisiana by the belief that they are not guilty of the crimes which they have done, and than frauds, such as we have heretofore enumerated, to act upon the Legislature, and they may have the assurance to offer in the voice of the people of this State, now misrepresented by Democrats.

**RATON'S HOSTILITY TO HAYES.**

Senator Eaton, of Connecticut, has never recalled himself to the election of President Hayes, and believes that to be consistent he cannot.

circumstances it is perhaps unfortunate that Mr. Eaton should occupy the important position of Chairman of the Committee on Foreign Relations, of all others. The Senator filling that position should be at least on courteous terms with the Executive. It was Mr. Sumner's severance of personal relations with President Grant that was urged in defense of his retiring from the Chairmanship of the Foreign Relations Committee.

**INTEROCEANIC CANAL.**

Senator Eaton has rather outwitted Senator Gordon in the interoceanic canal matter. While Gordon was busy in the Hepburn class-room, soliciting support to defeat the confirmation of Simmons, Eaton had quietly passed a resolution

The Administration to have any benefit from taking the initiative in a resumption of the Monroe doctrine.

**OFFICE-BROKING.**

It appears that some of the pretended office-brokers offer to secure places worth \$40 a month for \$5 a month; \$67 per month for \$10 a month; and \$75 per month at \$20 monthly compensation.

**MISSISSIPPI RIVER.**

The Mississippi River Commission is still working in secret, but it is learned that they have agreed to recommend a large appropriation for the improvement of the river. The time question of this movement have decided not to ask that the bill making the appropriation be referred to the Special Committee on Levees and Rivers, but that Committee failed yesterday to secure the special appropriation which the President has asked.

COURT ASSAULT.

The Judiciary Committee of the Senate have decided to report adversely upon the resolutions of Representative Young, of Ohio, providing for a general investigation into the conduct of the officers of the United States Army, and into the matter of fees and charges of various kinds by officers of United States Courts. The Committee are not opposed to such an inquiry, but they think that it should be conducted, not by a joint committee, but by the House Committee alone. The reasons were two-fold: First, as a joint committee cannot punish, and, for this reason, it was thought that the risk of not being able to obtain important testimony on this subject would be great. Second, the Committee

Those in favor were: Representatives Wood, Tucker, Gibson, Carlisle, Phelps, Zellon, Conger, Dunham, Frye and Kelley. Opposed: Representatives Carmichael and Morrison. Representative Mills not voting.

A sub-committee, consisting of Representatives Wood, Frye, and Carlisle, was appointed to confer with Secretary Sherman and report upon the exact phraseology of a bill embodying the features agreed upon by the Committee. It is expected a bill constructed upon the basis of Representative Wood's bill, with the modification and changes adopted by the Committee will be prepared and reported to the House on the call of the Committee on Tuesday next.
